6x26 Swaged

- ▶ Greater strength than 6x26
- ▶ Resistant to drum crushing

These ropes offer greater strength than standard ropes of the same diameter while providing greater resistance to drum crushing, scrubbing and similar wear.

When producing our 6x26 Swaged rope, we utilize a rotary swaging process to produce a compact cross-section with minimum voids and greater surface area on outer wires. Also, we utilize a special wire chemistry in the outer wires of the strands to further enhance the performance of our swaged ropes. The result is a very compact design that helps reduce wear to sheaves and minimizes crushing of the rope on the drum. Exactly what you'd expect from a leader.

6x26 Swaged Strength and Weights Chart (inches)

Diameter (in)	Weight (lb/ft)	Minimum Breaking Force (tons of 2000 lbs)
3/8	0.31	9.10
7/16	0.42	12.2
1/2	0.55	16.0
9/16	0.71	20.2
5/8	0.96	24.7
3/4	1.25	35.3
7/8	1.70	47.8
1	2.22	62.0
1 1/8	2.66	79.3
1 1/4	3.47	97.5
1 3/8	4.20	117

Union, a WireCo WorldGroup brand, produces wire rope for a variety of applications – each with their own exacting specifications. We employ the most experienced, talented, licensed engineers in the industry to design solutions for your application. Eight WireCo WorldGroup manufacturing operations and seven distribution centers in North America, plus manufacturing facilities in Mexico, Germany and China, give our customers unparalleled support and global reach. Find out for yourself why Union wire ropes have proven themselves time and time again in the field. Union: Tested, Tough & True.
